

**RESOLUTION
OF THE BOARD OF DIRECTORS OF
PRINCETON CROSSROADS HOMEOWNERS ASSOCIATION, INC.**

WHEREAS, Princeton Crossroads is a residential subdivision located in Collin County, Texas (the “**Subdivision**”) and Princeton Crossroads Homeowners Association, Inc. (the “**Association**”) is a property owners association made up of owners of the lots in the Subdivision;

WHEREAS, the Association is subject to those certain Bylaws of Princeton Crossroads Homeowners Association, Inc. recorded on October 7th, 2019 as Document No. 20191007001253910 of the Official Public Records of Real Property of Collin County, Texas (the “**Bylaws**”);

WHEREAS, pursuant to Article IV(C)(1) of the Bylaws the Board of Directors is granted all powers vested in the Association, including the power to manage the affairs of the Association; and

WHEREAS, the Board of Directors wishes to adopt the Records Production and Copying Policy, Document Retention Policy, Payment Plan Policy, Guidelines for Display of Flags, Guidelines for Solar Energy Devices, Guidelines for Rainwater Recovery Systems, and Guidelines for Display of Certain Religious Items attached hereto and incorporated herein as exhibits hereto.

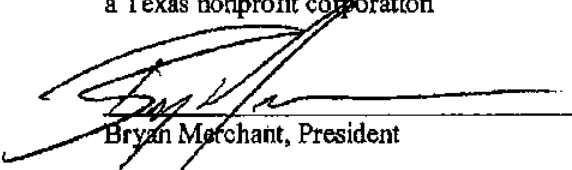

NOW, THEREFORE, BE IT RESOLVED, by the Board of Directors that in order to ensure the business and affairs of the Association and the welfare of the members of the Association, the Association establishes the following policies: Records Production and Copying Policy, Document Retention Policy, Payment Plan Policy, Guidelines for Display of Flags, Guidelines for Solar Energy Devices, Guidelines for Rainwater Recovery Systems, and Guidelines for Display of Certain Religious Items attached hereto and incorporated herein as exhibits hereto as policies and guidelines governing the Association.

[SIGNATURE PAGE TO FOLLOW]

EXECUTED this 11th day of October, 2019.

EXHIBIT F

GUIDELINES FOR RAINWATER RECOVERY SYSTEMS

WHEREAS, Princeton Crossroads Homeowners Association, Inc. (the “**Association**”) is charged with administering and enforcing that certain Declaration of Covenants, Conditions and Restrictions for Princeton Crossroads recorded on September 5th, 2019 as Document No. 20190905001091580 of the Official Public Records of Real Property of Collin County, Texas (the “**Declaration**”);

WHEREAS, Chapter 202 of the Texas Property Code was amended effective September 1, 2011, to amend Section 202.007(d) thereto dealing with rain barrels and rainwater harvesting systems (referred to collectively as “**Systems**”); and

WHEREAS, the Board of Directors of the Association has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding the installation and maintenance of Systems therein, it is appropriate for the Association to adopt guidelines regarding Systems.

NOW, THEREFORE, the Board of Directors has duly adopted the following Guidelines for Rainwater Recovery Systems within the community.

1. Systems may be installed with advance approval of the Architectural Control Committee (“**ACC**”) subject to these guidelines.
2. All such Systems must be installed on land owned by the property owner. No portion of the System may encroach on adjacent properties or common areas.
3. Other than gutters and downspouts conventionally attached to a dwelling or appurtenant structure, all components of the Systems, such as tanks, barrels, filters, pumps, motors, pressure tanks, pipes and hoses, must be substantially screened from public view from any street or common area. Screening may be accomplished by:
 - a. placement behind a solid fence, a structure or vegetation; or
 - b. by burying the tanks or barrels; or
 - c. by placing equipment in an outbuilding otherwise approved by the ACC.
4. A rain barrel may be placed in a location visible from public view from any street or common area only if the configuration of the guttering system on the structure precludes screening as described above with the following restrictions:
 - a. the barrel must not exceed 55 gallons; and

- b. the barrel must be installed in close proximity to the structure on a level base with the guttering downspout leading directly to the barrel inlet at a substantially vertical angle; and
 - c. the barrel must be fully painted in a single color to blend with the adjacent home or vegetation; and
 - d. any hose attached to the barrel discharge must be neatly coiled and stored behind or beside the rain barrel in the least visible position when not in use.
5. Overflow lines from the Systems must not be directed onto or adversely affect adjacent properties or common areas.
 6. Inlets, ports, vents and other openings must be sealed or protected with mesh to prevent children, animals and debris from entering the barrels, tanks or other storage devices. Open top storage containers are not allowed, however, where space allows and where appropriate, ponds may be used for water storage.
 7. Harvested water must be used and not allowed to become stagnant or a threat to health.
 8. All Systems must be maintained in good repair. Unused Systems should be drained and disconnected from the gutters. Any unused Systems in public view must be removed if they can be seen from any street or common area.
 9. The guidelines are effective upon recordation and supersede any guidelines for rainwater recovery systems which may have previously been in effect. Except as affected by these guidelines, all other provisions contained in the Declaration or any other dedicatory instruments of the Association shall remain in full force and effect.
